

**Name:** Millennium Train  
**Location:** Sydney, Australia  
**Products:** PSX 700  
**Date:** 2004

The canopy, skirts, doors and ceiling of the Millennium Train were coated with PSX 700 Engineered Siloxane, providing excellent glossy finish and color matching. After vandals applied graffiti to the train, the maintenance crew was able to remove the graffiti with only a high-pressure wash, retaining the original high-gloss finish.

*Before: Graffiti found on train*

*High-pressure wash*

*Graffiti washing off*

*After: Excellent color and gloss retention*
