

**Name:** Valero Fuel Storage Tank  
**Owner:** Valero Energy Corporation  
**Location:** Blue Island, Illinois, USA  
**Products:** Amercoat 395FD  
**Date:** Fall of 2006

Valero Energy Corporation is the largest oil refiner in North America. In the fall of 2006, a 300,000 gallon fuel storage tank in Blue Island, Illinois needed to be painted. Contractor J&A Industrial Services selected PPG PMC coatings for the project.

The carbon steel tank interior was abrasive-blasted and then coated with Amercoat 395FD high-solids, amine-cured epoxy tank lining.
